

With IC Markets Global Stocks CFDs, traders can now access an expanded portfolio of over 1,900 stocks across multiple exchanges including NASDAQ, NYSE, ASX, ETR, AMS, PAR, MAD, and LSE across Australia, the United States, United Kingdom and Europe. Stock CFDs are offered exclusively on the MetaTrader 5 platform, which allows traders enhanced flexibility in their investment strategies. For US-listed equities, IC Markets Global ensures that dividend adjustments on long positions are credited, while withholding taxes are automatically deducted. The deduction rate varies depending on the underlying market, but where a treaty between your country and the relevant market exists, the rate may be reduced. It's important to note that withholding tax deductions are not applicable to short positions.
